

## Art Gallery

Mission Statement - To display and celebrate church member artists' creations as unique contributions to the First Unitarian Church community, optimally but not necessarily linked to UU themes.

### Goals –

- To inspire creativity among our members
- To present an expanded perception of religion, church, and spirituality. For example, the art might be a response to monthly Soul Matters themes
- To better appreciate the artists as members of our First Unitarian community
- To support the artist and the art lover by providing space to show and enjoy art

Roles - Administration and implementation is currently addressed by a two-person team, David Weiss and Nancy Pinson. There is no plan for succession. This program will be evaluated by its administrators at the end of the church year with regard to interest, as measured by participation, at which point we will continue our roles for an additional year and address succession options.

Responsibilities - TBD

### Guidelines -

- Monthly meeting to hang submissions.
- Provide an automated submission form utilized by participants each month.
- Monthly notice of themes and displays via E newsletter.
- A blurb describing the program will be included in the Annual Report.

Accountability - Success is measured by degree of participation, as measured by number of submissions.
