COVID19 Requirements for in-person events

If you have a fever, cold or flu symptoms, or been in contact with anyone who has, please do not attend in-person events. If you have recently traveled to a COVID19 hotspot or been exposed to someone diagnosed with COVID19, please self-quarantine for 14 days prior to attending an in-person event. Vulnerable individuals (with risk factors such as age, diabetes, or other health issues) should consider their own risk before attending an event.

Upon arrival, we will check your temperature and ask for an update regarding the COVID19 survey questions listed below. We require that everyone wear a mask and maintain at least a 6 foot social distance from other households. Please plan for a temperature test prior to entering the building and wash hands or use hand sanitizer frequently. All restroom access is restricted to one person at a time, although people from the same household may access the bathrooms together to assist or supervise other members of the household.

Once the event has ended, please exit the building following social distancing requirements of 6 feet between households. Please do not congregate and socialize within the building or on church grounds.

Please also let us know if, within two weeks of attending an event at the church, you are diagnosed with COVID19 so we can let other attendees know they may have been exposed.

Number of people from your household attending *

In the past 72 hours have you had any symptoms for flu or COVID-19? Symptoms include, fever over 99.5, chills, sore throat, shortness of breath, fatigue, muscle aches, headache, congestion, runny nose, loss of taste and/or smell, nausea, vomiting, diarrhea. *

Yes

No

In the past 72 hours, have you been in contact with anyone having symptoms of flu or COVID-19? (see previous question for details) *

Yes

No

In the past 14 days have you been in contact with anyone who has travelled to a Covid19 hotspot or has tested positive for COVID19? *

Yes

No

If you have a cough or other respiratory symptoms associated with a known non-contagious condition such as allergies or asthma, please explain here: *

I acknowledge that the church cannot guarantee protection from infection and agree to hold harmless First Unitarian Church in the event I or a member of my household contracts illness at this event. *
