

Our Mobile Phone Giving App is Changing!!

We currently offer options to give using your mobile phone in the GivePlus+. Effective **September 30**, our electronic giving processor will no longer support GivePlus+ and we will start using a new app called **Vanco Mobile Faith Engagement** instead. The new system has been set up and you should begin using it instead of using GivePlus+.

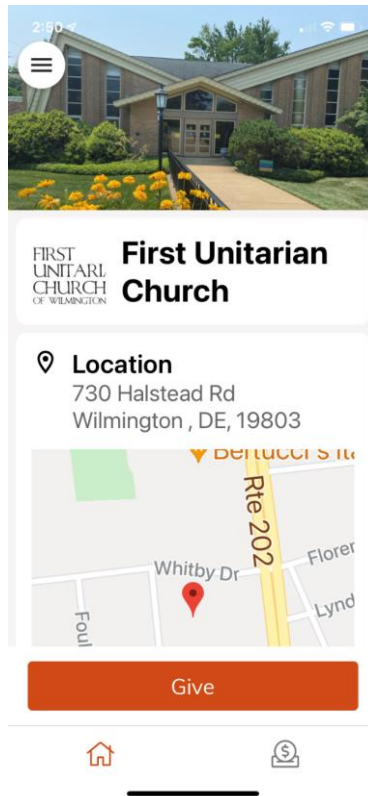

*If you have an account set up through the GivePlus+ App for recurring transactions, you do not need to make any changes to your recurring transaction plan. Please download the new app, Vanco Mobile Faith Engagement and sign in using your *log in info for GivePlus+ on the Vanco App* and you should see your information and recurring transaction set up. Check to make sure your bank or credit card information is correct.*

If you only use GivePlus+ for one time transactions, however, you will need to sign in to the new Vanco app to make sure your information is in the new system. You can set up an account in the new Vanco app to save your donation information for future use.

Step 1: Download the new app from the Google Shop or the Apple App Store. You should select the Vanco Mobile Faith Engagement App.

Step 2: Search for First Unitarian Church. Our address appears in the list of churches to help you confirm that you have selected the correct Unitarian Church. The Give screen will appear as follows:

Step 3: Enter the payment amount, account and frequency of donation.

☰ Give to First Unit...

\$0

Give

Follow the prompts until the transaction is completed. When done, you will receive an email as your donation receipt.

This change will only apply to people who use the mobile app for GivePlus+. If you set up electronic giving using a paper form, a call to the church office, or our online giving form shown here, there is no action needed!
